

Board Management Software

Learn why community associations use BoardSpace

How can we help?

Move beyond the chaos of reply-all email chains; end disagreement over actions item due dates; and stop struggling with awkward and hard-to-manage share-drive systems like Dropbox or Google Docs.

The software organizes the board's activities and records so that users always find what they need, when they need it.

Our Story

We are focused on delivering a high-performance solution for boards of directors and community managers. No one has time to deal with the admin busy-work & outdated software products of the past.

Pat founded BoardSpace because she could not find any technology to help the board of her condo. Admin and keeping track of things too far too long... so she went out to build a better tool with the help of a team of developers and business experts!

Minutes

Streamlines minute taking.

Documents

Group documents in one space.

Tasks

Organize tasks easily so no deadlines ever get missed.

Dashboard

Manage multiple boards/ committees with one login

Software that works for your Board

- ◆ Start in minutes ◆ Easy to use
- ◆ Purpose built for boards of directors
- ◆ An all-in-one software solution
- ◆ 24/7 access from every device
- ◆ Records are secure
