

Board Management Software

Learn why nonprofits, charities, coops, condos, HOAs & associations choose BoardSpace

Better meetings, better minutes, better boards.

How we help?

Stop saving documents in emails or struggling with awkward and hard-to-use share drive systems like Google Docs or Dropbox, never use reply-all email chains again; & no more disagreement over actions item due dates.

The software organizes the board's activities and records so that directors and property managers always find what they need, when they need it.

Minutes

Streamlines minute taking.

Documents

Find documents fast.

Tasks

Organize tasks, never miss deadlines.

Dashboard

Manage multiple boards & committees with a single login

Our Story

We focus on delivering a high-performance solution for boards of directors. No one has time to deal with the admin busy-work & outdated software products of the past.

Our founder, Pat Crosscombe, created BoardSpace to help her condo board. Admin and keeping track of things took far too long ...so she out to build a better tool & with the help of developers and business experts BoardSpace was created!
